# Why Take Biology

It helps you learn how to conduct research, problem solve, organize and think critically. **D**Biology is about uncovering the “what”, “why”, and most importantly the “how” of the living world around us.

- D** Its about studying organisms
- D**If you have interest in biology but don't want to become a doctor then research is your field.
- D** You can learn latest research methods.

**D**The medical stream presents a lot of career options besides MBBS. We have diverse Medical Career Opportunities. There are over 60 specialties to choose from.

**D** You can choose to work in hospitals or other healthcare facilities, research labs, or be a part of the medical department in other professional fields.

**D**There are Medicine graduates who manage health care costs in economic or sectors contribute to the legal work intended to verify medical errors and defend patients' rights.

**D**It all starts with choosing the right study path.
